EMORY
UNIVERSITY

The Ancient Philosophy Society was established to provide a forum for diverse scholarship on ancient Greek and Roman texts. Honoring the richness of the American and European philosophical traditions, the society

supports phenomenological, postmodern, Anglo-American, Straussian, hermeneutic, Tübingen School, psychoanalytic, and feminist interpretations of ancient Greek and Roman philosophical and literary works. Within the larger aim of assessing

the meaning and significance of ancient texts, the society is intended to serve as a site for critical engagement among these various schools of interpretation and to encourage creative and rigorous independent readings.
